

Storyboard Planning Template for the 6-Word Memoir or 6-Word Story

1. Determine the focus of your 6-word memoir or story. Then write your 6 words in the smaller boxes.
2. Decide on a way to visually represent each word (using each larger box) to show how one idea flows to the next idea.
3. If you are using video, decide the type of shot for each word: close-up, pan moving in/out or left to right, long shot, fade, etc.
4. You can cut the boxes apart to change the original order of the 6 words if it helps to tell your story from beginning to end.
